

Project Name/Subdivision/Address

Community/County

Design Engineer

Certification Requirements

FEMA MT-1 Form 3, Community Acknowledgement Form

Certification from the developers' or landowner's engineer is required before the community will sign the FEMA MT-1 Form 3, "Community Acknowledgement Form," which is required for a LOMR-F and CLOMR-F:

LOMR-F and CLOMR-F submittals include a section where the Community Official's signature is required. The community requires that the developer's or landowner's engineer submit a certification with original signatures and professional engineer's seal, stating the following certification and all required permits and/or approvals from Federal and/or State agencies are attached:

I hereby certify that:

The project or proposed project is designed to meet all of the community floodplain management requirements as specified in the community's Flood Damage Prevention Ordinance or Court Order and the applicable section of the National Flood Insurance Program (NFIP) Floodplain Management Regulations, 44 CFR 60.3. a through e, including the requirement that no fill will be placed in the regulatory floodway and that all necessary Federal, State, and local permits and approvals (44 CFR 60.3.a.2) have been (or in the case of a CLOMR, will be) obtained. In addition, we have determined that the land and any existing or proposed structures to be removed from the SFHA will be "reasonably safe from flooding" as defined in 44 CFR 65.2(c).

The project or proposed project (has or does not have) the potential to impact an endangered species therefore documentation is attached to this certification document showing compliance with Sections 9 and 10 of the Endangered Species Act (ESA). Section 9 of the ESA prohibits anyone from "taking" or harming an endangered species.

The project or proposed project (includes or does not include) an action that might harm an endangered species, therefore required permits have been obtained from the US Fish and Wildlife Service or National Marine Fisheries Service under Section 10 of the ESA.

The project or proposed project (includes or does not include) actions that have been authorized, funded, or being carried out by Federal or State agencies, and documentation from the appropriate agencies showing its compliance with Section 7(a)(2) of the ESA are attached to this certification.
